Subject: I want to help close abusive treatment programs
Cinnamon Hills Youth Cisis Center
770 E. St. George Blvd.
St. George, Utah

This place is where my Daughter was sent and it was only soposta be for 9-12 months. She has been there 2 years now.

They put her on medication after medication which caused other problems healthwise, and then other medications to battle the complications. The children are not allowed to go to the bathroom when needed. They usually have to wait on a list which takes 20 minutes.
When I was out to visit and asked about what kind of references and training that the staff had I was ignored and told that I just had a chip on my shoulder.
