Yes I would like it to be posted I want this place shut down!!!

I attended diamond ranch academy in 2015 and was abused there in many ways along with many other children in that program. There's a Facebook group called I survived diamond ranch academy they have a pending lawsuit for wrongful death. 4 kids have died now in this program. They lie to ur parents the whole time you're there. It's a private prison where ur abused, neglected and traumatized. Upon intake nude photos were taken of me to for "documentation" that were suppose to have been given to my parent of which my mother never received. I was strip searched multiple times a day by untrained staff. They watch you shower and there's always cameras around but whenever something happens that doesn't look good on staff suddenly the cameras weren't working for that period of time specially. I got a fake Pap smear and offered a breast exam upon arrival that aren't done the way a normal Pap smear is done which leads me to believe everyone who got that was sexually assaulted. I also requested my medical records from them and when I got them there was no record of me getting this Pap smear. I had chemical and physical restraints used on me. what they call "treatment" is what I call child abuse and then they profit enough out of it every former resident could have had a fully paid off house instead and not been traumatized either. other former residents who are now adults feel the same way I do. Former staff are coming forward as well. They killed Taylor goodridge, have abused thousands of kids for profit, and so much more unspeakable things. all dra survivors deserve justice or at the very least our parents deserve their money back and for them to pay for our therapy fees since. Lastly I just wanted to highlight a disturbing factor for my stay at dra my parents sent me to dra when neither of them had custody of me. My grandfather had custodial guardianship over me and I got into a fight with my mom when I was visiting her outta state. My grandfather never consenting to anything to do with me being at dra and was the reason I was pulled only a little over a month into my stay. I tried to tell this fact to staff and was told I was manipulating and lying when it's literally information that available publicly over the internet that my parents didn't have custody of me. I have received my records from dra and have the paperwork on the sexual assault I guess on paper they're claiming was a physical like the kind you do for school sports that clearly shows genital area marked with answers even though it says males only..... I also have blood work results of my glucose being low due to them not feeding me and I'm not diabetic nor do I have hypoglycemia.

Dear Katlyn,

Thank you for reaching out! You should report the maltreatment to Utah regulators using the "Submit A Concern" option at <https://hslic.utah.gov/submit-a-concern> prior to October, 2025 based on what you provided in your message. There is still time for them to investigate your complaint. If you'd like your message posted publicly as feedback at <https://www.cope.church/feedback.htm> and <https://www.cope.church/dra.htm>, please let me know. And, please consider writing a guest sermon on your experience if you wish Diamond Ranch Academy's permanent placement on the

watch-list.

If I can be of further help, please let me know.

All My Best,

Rev. Angela Smith

HEAL Mission National Coordinator/Founding Mother of COPE

Infectious Diseases			

I am not dietetic nor do I have hypoglycemia I was not being fed prior to these tests for longer than 24 hours at least and was also not fed during transport or the first two days I got there at all and had to watch these adults transporting me eat food right in front of me as well as once I got to the facility on multiple occasions for extended periods of time.
