

SPECIAL REPORT: HEAL MISSION/COPE CONVERSION PROGRAM
by Rev. Angela Smith of <https://www.cope.church>

For the sake of setting a definitive goal for the HEAL Mission False Prophets' Watch-List and COPE Conversion Program, I took a look at Mount Bachelor Academy as arguably representative of those entities populating the watch-list whose existence proved to be finite. I found Mount Bachelor Academy was open from 1987-2009, 22 years. I found they were approved for a maximum capacity of 60 residential wards/captives. And, that amounts to a total possible number of 1,320 enrolled parties over span of existence of Mount Bachelor Academy. Mount Bachelor Academy had at least two deaths at the facility. Our virtual conversion program has witnessed the demise of over 300 entities formerly actively populating the watch-list including Mount Bachelor Academy. So, the arguable goal here is to graduate or mercifully release at least 1,318 entities currently enrolled or enrolling in the future while providing a non-accredited certificate of recognition to graduates with equal value to any "diploma" issued by Mount Bachelor Academy. And, I don't know that any Sponsors of placements will be sad if their programs/entities fail to graduate or receive merciful release though understand many rejoice new additions to the virtual cemetery at www.beyondbusiness.net/youarenext.htm

As of September 14th, 2020, there have been no graduations/graduates and only one official merciful release. So, 1,317 graduations and/or merciful releases to go with likelihood many populating the list won't make it out alive. Convert or end up like Mount Bachelor Academy, merciful release is discretionary at the church/program director's (Rev. Angela Smith) option. Merciful releases are based on multiple factors many of which are disclosed in Conversion Program Progress Reports available at bottom of <https://www.cope.church/conversion.htm> . Mercy is possible, graduation is up to you, and death is inevitable sooner or later whether we choose to participate or not.
