Dear Grandma,

This place is a reform school. I have spent a lot of time doing time by spending time standing facing the wall a lot. I am sick of this place I hate it here, They don't show you any affection or understanding, I really want and need to come home. If you tell my therapist he will just cover it up and get me in major trouble, Mom and you could fly down and sign this paper which will get me out. I know I asked to be here but this place is making me worse. I will go back to the hospital if you want that would keep me. This place has no love and I need some love. Please help me out, There ~~are~~ is one person who agrees with me she came from Fairfax also. I love you and want to come live with you now, I feel ready. ->

I can't take this hell-hole much longer, Please I am not manipulating you I need help. I have asked to talk to a psychologist for the past 6 days and no one has acknowledged me. I haven't seen a doctor or dentist since I have been here. This place is worse than an orphanage. Thank you, I know you want me home as much as I want to be home, please help. I wish this place on no one,

Love Always

Dear Grandma,

I am being lied about
do staff. They are believing
the liars and not me. I will
not get an education because
I will be doing IPS, which
I have explained. I want &
need out. I am being
set up to get in major
trouble. Please help. This
place is totally against me.
They say I want to run but
I never said or did want to.
I do want to leave but I
want to leave with permission.
Please don't tell my therapist
I asked to come home he
will give me even more trouble.
Just help. Can't pay anything
more but I love you and
miss you and hate lies.

Dear Grandma,

I received your care package yesterday. Thank a lot for everything. The card is really sweet. I love you and miss you a lot. I am starting to accept the fact that I am here but that doesn't stop me from wanting to come home. People have been trying to get me in trouble but it totally back fired on them. I am really afraid about getting in trouble because it is very, very easy to do. I am hoping to get home before a year is up. When you come to visit me in September bring Killer my therapist

said he could come on my first visit. You will have to call my therapist to find a good time in September for you to come. Remember that

you are the family member and have
the last word in when you come up.
My therapist might try to ~~talk~~ talk
you out of coming in September but it
is up to you. He would say no if

I asked but he will say yes to you
because therapists can't say no to parents
or you can sue him or the school.

I love you and miss you a lot. Say
hi to the animals for me. Tell
them I miss them a lot. Thanks
for everything. Call Steve Astle
for the visiting information. I

want private time to talk to you
when you get here. "See you in Sept."

I dedicate that song to you.
